VL2710

STANDARD: Sublimation - Full color

Design Best Practices

IMAGES
• Minimum 300 dpi.

TYPE
• All fonts outlined.
• Minimum point size - 12pt.
• Script font sizes must be comparable to a 12pt standard
  font such as Times New Roman to ensure proper printing.
• Background and text colors have an impact on printing.
  Even 12pt or larger fonts may print poorly if too thin
  or on a dark or high contrast background. (see graphic below).
