

Congratulations to Freedom from expensive bottled water.

This is NOT a solid carbon filter. You don't have to rinse the filter before using to get rid of that messy carbon residue.

- ❖ Larger filter for better purification and better flow.
- ❖ Freedom Filter filters water automatically every time you sip from the bottle.
- ❖ BPA free, Reusable, Recyclable, FDA Approved, CA Prop 65 Compliant.

Change filter every 200 fill ups, or 3 months. Do not wash **filter** with soap or you will clog it up!

Here are a few helpful tips to enhance your enjoyment of your new drinkware.

- ❖ Remove filter from bag.
- ❖ Wash all parts of bottle and lid **except for filter** in warm soapy water before using.
- ❖ Always ensure the lid is fastened securely before drinking.
- ❖ This product is not for use in a microwave.
- ❖ This bottle should be hand washed only.
- ❖ Do not use cleaners with bleach or chlorine.
- ❖ Air dry filter when not in use.

Our state of the art patented filter is made using NASA technology.

Removes 99.9% parasites, bacteria, and viruses plus taste and odor for safe, clean, quality water on the go.

With proper use up to 200 fill ups or 3 months filter life. Ready to use from the first fill up.

Easy to remove and replace filter cartridge. Just unscrew used filter and screw in new replacement filter.

Certified by BCS Laboratories Inc.

WARNING: Do not use where water is microbiologically unsafe. Use only tap water.
